

## Animal Friendly Food Decree – Animal Friends Jogja (AFJ)

We at Animal Friends Jogja (AFJ)

- recognize that animals utilized for food are often subjected to cruel and inhumane treatment in order to satisfy human desires.
- recognize the destruction of the environment caused by the palm oil industry, and also the impact this destruction has on the animals and people who rely on the forests destroyed.

Therefore, in respect of all sentient life on earth, Animal Friends Jogja (AFJ) has committed to serving only vegan foods prepared with non palm oil products at any events held by AFJ, and recommend event holders for external events in which AFJ takes part consider a vegan and non palm oil menu for their events (though this cannot be controlled outright).
